ZEVinnovation

STRENGTHENING TRANSNATIONAL COOPERATION, KNOWLEDGE AND TECHNOLOGY TRANSFER IN DEVELOPMENT OF ELECTRIC VESSELS AND FOSTERING INNOVATIONS IN SMES

The aim of the ZEVinnovation project is to establish a sustainable network for the development of innovative zero-emission vessels and related technologies by developing a transnational innovation and collaboration hub.

About the Survey:

The survey has been designed to help ZEVinnovation project measure the attitudes of organisations towards innovation and collaboration and in doing so, it will help us to:

- **Identify potential collaboration partners and projects which may be of interest to participants; and**
- **Identify and develop the tools, training, resources and support which participants need to assist them in collaboration and innovation projects.**

The survey has designed in accordance with the recently published *ISO Standard 56000* on Innovation Management and Innovation Partnerships.

By taking part in the survey you will be able to:

- **Reflect upon and evaluate your own organisations' attitudes towards collaboration and innovation;**
- **Gain access to the Zero Emission Innovation HUB tools and resources which may lead to possible participation in EU funded pilot projects under the Horizon Europe scheme;**
- **Gain access to an international maritime network of organisations all working towards creating a greener future through the development of zero emission vessels.**

TAKE THE SURVEY

The survey should take approximately 10 minutes. Thank you in advance for your participation.

Complying with privacy and legal responsibilities required for all forms, surveys and questionaires we are handling the people's information with increased safety.
